

# RICOMA

## WALL-MOUNTED Air Conditioners

### Key Features:

- Antibacterial Filtering
- Automatic Humidity Removal
- Energy Efficient
- Quiet Operation

**Clean Breath efficient biological antibacterial filter gauze.**  
The **ONLY** brand certified as having a 99.9% bacteria killing rate, which prevents secondary microorganism pollution and ensures your family's health.

**Double muting technology**  
Optimized with leading design and Japanese technology, it is assured that both indoor and outdoor units work quietly without disturbance to others.

**Automatic humidity removal**  
This function keeps indoor air dry and fresh, this eliminates bacteria proliferation and assures your family's health.

**Energy Efficient**  
With the implementation of DDC technology, our air conditioner's energy consumption is 20% less than other a/c units on the market.
